

SP-WP2

Sensplorer Wall Mount Panel with Battery

- The Sensplorer Wall Mounting Panel is compatible with the following model Sensplorer Master Modules:
 - Sensplorer-M B0808
 - Sensplorer-S B0404
 - Sensplorer v3.0

Sensplorer Wall Mounting Panel, provides mounting and backup power supply for certain main module groups.

Since the Displayed Sensplorer Main Modules are mounted on the front cover of the panel, settings can be made without opening the cover, and existing alarms and warnings can be observed.

Battery and charging module are also inside the panel.

It meets many needs when assembly is required in archive rooms, small system rooms, telecom and security rooms.
